DETAILED ACTION

This Supplemental Office Action is identical to that mailed on July 06, 2005 with the exception that the rejection under 102 should be under 102(g) and not 102(e).

Claims 5, 6, 24 and 26-31 were found allowable as shown in the Notice of Allowance mailed 2/26/02. However, the application was withdrawn from issue and suspended pending a possible interference. The final suspension was mailed 10/8/04. However, a rejection under 35 USC 102 was improperly withdrawn. Therefore, the suspension has been lifted and prosecution on the merits continues.

1. Formal Matters

- A. Claims 5, 6, 24 and 26-31 are pending and are the subject of this Office Action.
- B. All Statutes under 35 USC not found in this Office Action can be found, cited in full, in a previous Office Action.

2. Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed, or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed, or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

- A. Claims 5, 6, 24 and 26-31 are rejected under 35 USC 102(g) as being anticipated by Goodwin et al. (US 5,674,704) for the reasons already of record on page 8 of the Office Action mailed 8/24/99. Failure to present claims and/or take necessary steps for interference purposes after notification that interfering subject matter is claimed constitutes a disclaimer of the subject matter. This amounts to a concession that, as a matter of law, the patentee is the first inventor in this country. See *In re Oguie*, 517 F.2d 1382, 186 USPQ 227 (CCPA 1975).

Art Unit: 1647

Applicants submitted a Declaration under 37 CFR 1.131 by Dr. Kwon. However, a Declaration under 37 CFR 1.131 is not sufficient to overcome this rejection. MPEP 2308.01 states:

If an applicant is claiming the same invention as a patent which has an earlier effective United States filing date but there is not a statutory bar against the application, and the applicant has not submitted the items required by 37 CFR 1.608(a) or (b), as appropriate, the application should be rejected under 35 U.S.C. 102(e)/103. A statement should be included in the rejection that *the patent cannot be overcome by an affidavit or declaration under 37 CFR 1.131 but only through interference proceedings*. Note, however, 35 U.S.C. 135(b) and MPEP § 2307. The applicant should also be advised that an affidavit under 37 CFR 1.608(b) or evidence and an explanation under 37 CFR 1.608(b), as appropriate, must be submitted and it should be stated, if applicable, that the patentee has been accorded the benefit of an earlier U.S. application.

However, instead of a showing under 37 CFR 1.608(b) Applicants are now required to provide a showing under 37 CFR 41.202(d).

3. Conclusion

- A. No claim is allowable.
